

## STANDARD INFORMATION

**Standard:** UL 879A

**Standard ID:** LED Sign and Sign Retrofit Kits [UL 879A:2012 Ed.1+R:06Oct2023]

**Previous Standard ID:** LED Sign and Sign Retrofit Kits [UL 879A:2012 Ed.1+R:19May2022]

## EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

**Effective Date:** **October 6, 2025**

## IMPACT, OVERVIEW, AND ACTION REQUIRED

**Impact Statement:** Per our accreditation, Intertek is required to review reports against the standard revisions to confirm compliance. Once compliance is confirmed, the standard reference in the report is updated to show continued compliance to the technical requirements of the standard. Reports not updated to this version by the effective date above will be withdrawn.

**Overview of Changes:** Addition of markings required by the NEC. Specific details of new/updated requirements are found in table below.

***Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.***

## STANDARD INFORMATION

CLAUSE	VERDICT	COMMENT
		<i>Additions to existing requirements are <u>underlined</u> and deletions are shown <del>lined-out</del> below.</i>
24	Info	<b>Required Markings</b> The following markings are required:
24.1		<u>m) For field installed kits, a separate, field-installable label to indicate that the illumination system has been replaced. See Table 26.1, Item J.</u>
26	Info	<b>LED Kits for Field Installation in a Host Sign</b> The instructions are to include the following information:
26.2		d) Determine if disconnect switch needs to be installed (for example a switch may be integral to a neon power supply) <u>and where to locate it, if needed;</u> <u>l) For a general use retrofit kit, a list of components required to be supplied by the installer.</u>
